Progress Monitoring

Dear Parent or Guardian:

Below are your child's progress monitoring results if he/she was present for these assessments during the current school-year. These assessments are designed to help teachers assess students quickly, accurately and efficiently so they can provide students with appropriate instruction and monitor their progress.

Scores are reported as Percentile Ranks (PR). The Percentile Rank compares your child's scores with that of other students in the same grade across the United States (Reading and Math) or within the District (Science and Social Studies). A Percentile Rank of 55, for example, indicates that this student has scored better than 55% of the students in his/her grade level. If you have any questions regarding your child's scores, please contact your child's teacher.
